### Product Summary

Our state of the art distillate vaporizer. This kit consists of one cartridge, one battery and one charger. Cartridge contains 0.8ml Flyte oil. The Flyte pen and cart are the result of years spent exploring multiple forms of cannabis oil and vaporizer tanks. We developed a proprietary technique to distill cannabis oil that removes ALL impurities and co-developed a pen vaporizer design that quickly vaporizes the thickest and most purified oil. This is not a pen for puffing. It's a pen for the long haul.

## Product Description

In our distillates, we use pure THC and the indica or sativa effect is given by the terpenes added to it due to the entourage effect.

Here is a breakdown of the effects you might get based on the terpene profiles we use:

Hybrid: Mango, Peppermint, Pineapple, Tangerine (refreshing, balanced, focus, uplifting)

Indica effect: Blueberry (body high, mental relaxation)

Sativa effect: Grapefruit Haze, GCG, Sour Diesel (stimulating, cerebral)

Choose from **8** classic and satisfying flavors!

**Ingredients**: pure THC, terpenes, and a proprietary blend

**THC content**: 72% per cart
